EXECUTIVE SUMMARY

Section 813(3) of Public Act 84 of 2015 requires the Department of Technology, Management & Budget (DTMB) to submit a fleet plan to the legislature within 60 days of the end of the fiscal year.

This report summarizes information at the statewide level, including a fleet inventory as of September 30, 2016 and actions taken to maximize the value of state fleet operations. The Department of Technology, Management & Budget will continue to work with the legislature to meet the mutual goals of efficiently managing the statewide fleet, controlling expenditures, and greening the fleet.

Additional information regarding fleet operations is available from the Department. Please contact Sherri Irwin, Director, Fleet Operations with specific information requests.

OVERVIEW

Section 813(3) of Public Act 84 of 2015 requires the Department of Technology, Management & Budget (DTMB):

(3) Pursuant to the department of technology, management, and budget's authority under sections 213 and 215 of the management and budget act, 1984 PA 431, MCL 18.1213 and 18.1215, the department shall maintain a plan regarding the operation of the motor vehicle fleet. The plan shall include the number of vehicles assigned to, or authorized for use by, state departments and agencies, efforts to reduce travel expenditures, the number of cars in the motor vehicle fleet, the number of miles driven by fleet vehicles, and the number of gallons of fuel consumed by fleet vehicles. The plan shall include a calculation of the amount of state motor vehicle fuel taxes that would have been incurred by fleet vehicles if fleet vehicles were required by law to pay motor fuel taxes. The plan shall include a description of fleet garage operations, the goods sold and services provided by the fleet garage, the cost to operate the fleet garage, the number of fleet garage locations, and the number of employees assigned to each fleet garage. The plan may be adjusted during the fiscal year based on needs and cost savings to achieve the maximum value and efficiency from the state motor fleet. Within 60 days after the close of the fiscal year, the department shall provide a report to the senate and house of representatives standing committees on appropriations and the senate and house fiscal agencies detailing the current plan and changes made to the plan during the fiscal year.

Under sections 213 and 215 of the Management and Budget Act (P.A. 431 of 1984 as amended), DTMB is authorized to issue directives relative to all motor vehicles except for those motor vehicles under the jurisdiction of the Michigan Department of Transportation (MDOT). DTMB provides these centralized services to state agencies through its organizational unit, Vehicle and Travel Services (VTS). MDOT leases some passenger vehicles and work trucks through VTS; however, it maintains its own agency-owned fleet and garage operations. This report includes inventory information on the MDOT agency-owned fleet as reported to DTMB VTS. Information on MDOT's garage operations is not included due to MDOT's separate legislative authorization for these services.

This report summarizes information at the statewide level. The Department of Technology, Management & Budget will continue to work with the legislature to meet the mutual goals of efficiently managing the statewide fleet, controlling expenditures, and greening the fleet.

FLEET INVENTORY

FLEET DEFINITIONS

P.A. 431 of 1984 defines the fleet in Section 213(1)(b): "motor vehicle" means a passenger vehicle, van, minibus, truck, tractor, or other motorized vehicle.

Appendix A provides a summary of vehicles and equipment reported as of September 30, 2016. Vehicles may be leased through the State's leasing vendor or purchased with state funds. DTMB VTS categorizes and tracks this inventory as follows:

- Leased inventory managed by VTS
- Agency-owned vehicles managed by MDOT (under legislative authority), other agency owned vehicles approved by DTMB VTS, and other miscellaneous owned motorized equipment

Vehicles are also leased to colleges and universities at their request. Two hundred twenty (220) vehicles leased by five universities are included in the total fleet inventory.

Data has been organized by national fleet classifications defined by the National Association of Fleet Administrators (NAFA). These classifications include on-road and off-road vehicles, non-self-propelled equipment, and heavy equipment. Using the broadest definition of “motorized vehicles”, the total state fleet includes 13,435 vehicles and units of equipment broken down to 8,406 leased vehicles (managed by VTS) and 5,029 agency-owned vehicles and heavy equipment.

These vehicles are classified as follows:

On road vehicles	9,846
Off road vehicles	2,798
Non self-propelled equipment	791
Total	13,435

Please see Appendix A for detail by department and description.

FLEET MANAGEMENT

Between September 30, 2015 and September 30, 2016, the leased fleet size increased by 201 vehicles.

Growth has continued, in part, as the result of an increasingly mobile workforce enabled by technology. Department of Health and Human Services (DHHS) case workers now travel to their clients, rather than making clients come to an office, putting more employees in the field. The Department of Licensing and Regulatory Affairs (LARA) required additional vehicles due to program expansion and assigning employees receiving high mileage reimbursement to state fleet vehicles at a lower cost. The Michigan State Police (MSP) strategy of regional policing required additional patrol vehicles, and patrol vehicles were added to accommodate the graduates from two trooper recruit schools.

INFORMATION SHARING WITH DEPARTMENTS

To assist departments in managing their fleet needs, DTMB VTS meets quarterly with each department’s fleet coordinator and provides a detailed report which includes high and low mileage vehicles, vehicle order status, motor pool usage, accidents, personal mileage reimbursement, and maintenance reports. Using this data, VTS and the department’s fleet coordinator are able to identify mileage patterns and vehicle usage days to help determine if vehicles are fully utilized. The review also focuses on

excessive maintenance costs; personal mileage reimbursement that could be reduced by use of a fleet car; and safe driving habits.

MOTOR POOL OPERATIONS

DTMB VTS maintains central pools to meet the needs of state employees requiring vehicles for short-term trips of 14 days or less. These are located in Detroit, Escanaba, Flint, Grand Rapids, Lansing, the State Secondary Complex and Traverse City. DTMB VTS motor pool size and usage is monitored monthly to ensure efficient usage.

Three hundred twenty-one (321) vehicles are maintained in the VTS motor pools. Data on motor pool usage is provided below:

Motor Pool Location	Number of Trips (FY2016)	Miles Driven (FY2016)
Detroit	9,060	992,780
Downtown Lansing	8,509	2,040,111
Escanaba	1,899	150,210
Flint	15,332	853,554
Grand Rapids	2,969	395,861
State Secondary Complex	1,972	534,743
Traverse City	3,336	268,309

Departments are encouraged to establish motor pools to facilitate sharing of assigned vehicles within their own departments.

PERSONAL VEHICLE USAGE

When in the best interest of the state, an employee may use a personal vehicle as an alternative to a state-owned vehicle. The employee reimbursement for premium mileage is the IRS standard mileage rate in effect during the fiscal year. It was \$0.575 per mile for the first quarter of FY2016, decreasing to \$0.54 per mile for the remainder of FY2016. The average per mile cost of a midsize state vehicle is used to set the standard mileage reimbursement rate. The FY2016 standard mileage reimbursement rate was \$0.36 per mile.

The FY2016 cost of personal mileage reimbursement for executive branch agencies was \$6,974,259, representing 14,432,885 miles traveled and a \$618,792 decrease from FY2015. The bulk of this decrease was in premium mileage reimbursement where reimbursement decreased 16% and miles traveled decreased by 11.5%. Vehicle consultants regularly provide data to the departments identifying when it may be more economical to assign a state vehicle to an employee than to pay reimbursement.

ESTABLISHMENT OF VEHICLE TYPE TO MATCH JOB REQUIREMENT

A key to reducing costs is the alignment of the type of vehicle needed with the actual job performed. Departments are asked not to identify specific desired makes and models but to define the functional need to be met by an assigned vehicle. An in-depth analysis of job specifications is completed which allows vehicle assignment based on these

defined functional needs rather than vehicle models. DTMB VTS and the agency identify the most cost-effective solution.

TOTAL COST OF VEHICLE OWNERSHIP

Vehicle selections are made based on manufacturers' ordering cycles, availability of appropriate models from manufacturers, and total cost of ownership. The total cost of ownership over the life of the vehicle is calculated based on the vehicle acquisition cost, maintenance costs, expected mileage and fuel costs, and projected resale value.

DRIVER ACCOUNTABILITY

DTMB VTS conveys its expectations related to vehicle use through driver agreements, email communications, and the department vehicle coordinators. Driver agreements outline the responsibilities of drivers who use state vehicles and equipment and are required to be signed by each driver and maintained in their personnel file.

ALTERNATIVES TO TRAVEL

DTMB VTS continues to work with departments to identify and encourage alternatives to travel for meetings and training. DTMB conferencing and collaboration tools allow employees to work together in real time without face-to-face interactions, reducing travel costs. Current statewide conferencing and collaboration tools include audio conferencing, web conferencing, video conferencing, and streaming media.

GREENING THE FLEET

DTMB works to reinvent Michigan by protecting our environment through these approaches:

- Complies with the requirements of the federal Energy Policy Act (EPA) of 1992.
- Includes hybrid vehicles in the state fleet when it is cost effective and the vehicle meets functional needs.
- Encourages vehicle drivers to refuel with alternative fuels when economically feasible.
- Encourages the use of biodiesel fuels.

Since the passage of the Energy Policy Act in 1992, DTMB VTS has complied with its requirements. DTMB maintains a website listing retail fuel locations statewide that dispense E85 ethanol and includes a list of those locations in each flex fuel vehicle.

During FY2016, 319 flex fuel vehicles were added to the leased fleet, replacing vehicles which run only on unleaded fuel. The State also has 31 hybrid vehicles in the fleet.

Study of trends and progress in alternate vehicle energy sources and infrastructure continues for potential application to the state fleet. This includes use of compressed natural gas as a fuel, electric vehicle charging stations, and shared infrastructure.

FUEL

ALTERNATIVE FUEL

The State currently has 5,586 flex fuel vehicles, capable of operating on either unleaded gasoline or E85 (85% ethanol, 15% gasoline). This is an increase of 319 vehicles from 2015. In FY206, the State purchased 25,417 gallons of E85 for the leased fleet as compared to 29,476 gallons in FY2015. Total usage may be understated because of inaccurate reporting by retail fuel sites and limited product availability statewide. Efforts to promote awareness of E85 continue, although pricing has not been competitive. According to the U.S. Department of Energy, 240 commercial fueling sites in Michigan currently sell E85.

In FY2016, approximately 21,387 gallons of B20 (80% biodiesel, 20% diesel) fuel were purchased for use in the state fleet from the bulk fueling location at VTS's State Secondary Complex location compared to 32,573 gallons in FY2015. Data is unavailable for purchases at retail outlets due to merchant reporting inconsistencies.

Federal Energy Policy Act legislation requires that 75% of the State's non-law enforcement, light duty vehicle fleet is comprised of flex fuel vehicles and that alternative fuels are utilized when they are reasonably available and reasonably priced. Credits for use of biodiesel may be combined with vehicle purchases to meet federal requirements. The State has complied with federal requirements in FY2016 and anticipates it will meet these targets again in FY2017.

FUEL CONSUMPTION

In FY2016, the State's leased fleet utilized 6,700,491 gallons of fuel, traveling 118,892,791 miles. Retail fuel prices averaged \$2.35 per gallon, compared to \$2.71 per gallon in FY2015.

In developing the FY2017 budget, VTS utilized federal Energy Information Agency (EIA) data as of July 2016 to estimate average retail fuel prices by quarter. For FY2017, the EIA estimated the annual average retail price per gallon will range from \$2.32 to \$2.59 per gallon. The FY2017 budget assumes the leased fleet will travel 119 million miles with total fuel costs estimated at approximately \$13.7 million.

FUEL TAXES

Utilizing a fuel card provider, the State is able to purchase fuel exempt from federal excise taxes and state taxes. In FY2016, the State saved \$2,901,710 in state motor fuel sales and excise taxes and federal excise taxes on its purchases.

FLEET GARAGE OPERATIONS

DTMB VTS maintains one fleet garage at the State's Secondary Complex in Dimondale. The garage is staffed by 23 full-time employees and is supplemented, when needed, by temporary employees. This report does not include information related to the MDOT garages as that information is maintained by MDOT.

GARAGE SERVICES

The VTS garage is authorized by the automotive manufacturers as a new car prep center. In addition, the garage provides full maintenance and repair services except for engine and transmission overhauls and body repairs. VTS mechanics are ASE- (Automotive Service Excellence) or state-certified. The garage maintains a parts department, including tires, push bars, lights and other specialized equipment needed by the Michigan State Police and Department of Natural Resources law enforcement. Many of these parts are not readily available at retail service centers, and the state is able to purchase parts at a sizeable discount from retail. Core services provided by the VTS garage include new car vehicle prep, maintenance of MSP precision driving unit vehicles, and management of vehicle resale and disposal functions. VTS garage personnel in Lansing also manage the state's seven motor pool locations.

In FY2016, the garage provided the following services:

Type of Service	Count of Jobs
Preventive Maintenance	1,794
Tires	3,439
Brakes	1,700
Body and Glass	1,516
Miscellaneous Repairs	4,161
Assignments/Terminations/Disposals	11,905
Parts Repair/Parts Distribution	20
Towing Service and Transport	263
TOTAL	24,798

GARAGE EXPENDITURES

In FY2016, VTS garage expenditures were \$3.25 million.
